Scotchmen Foregather At Alberta Hall To Do Honor to Patron Saint

Gala Night Under Auspices of Camp Rob Roy No. 45—Splendid Banquet Followed By Dance—Inspiring Speeches Delivered By Colonel Poston and Rev. A. S. Kerr.

St. Andrew's "night" was last evening's affair, commemorated by Camp Rob Roy, No. 45, Sons of Scotland, by a banquet and an assembly which took place in Alberta Hall. The walls of the hall were decorated most appropriately with Scottish emblems and at each place at the table was a place of honour, supplied by Mr. W. B. Walker. It is estimated that upwards of 200 sat down to supper. While the latter was being partaken of the Danish Orchestra rendered a number of selections, which were well received and well received.

After dinner had been done to the beautiful record provided by Mr. J. W. Walker, a programme of an interesting nature was carried out. Mr. Wm. MacLachlan, Chief of Camp Rob Roy, occupied the chair, and in his opening remarks he said that the night of Scotland in Belleville was doing this night what Scotland all night long was doing, namely, to honor the patron saint of the Scotchmen.

Mr. B. Walker, who was the toastmaster, said that the night of Scotland in Belleville was doing this night what Scotland all night long was doing, namely, to honor the patron saint of the Scotchmen.

FIGHT NECK AND NECK

Liberals and Unionists Keep Even in Conflict.

Remarkable Campaign in Great Britain Will Result in a New House Being Returned to Westminster—Unionists May Be Elected—Many Carries Doubtful.

London, Dec. 8.—The fifth day of the election ended with the parties still running neck and neck, and with the prospect that they will continue to do so until the vote is almost precisely equal. The relative position held at the start. Returns had been received up to midnight from the voting for 419 members, and the result was a Unionist gain of two seats in that number over those held by that party in the last Parliament.

This amazing result is unprecedented in English history as it is calculated to give the Unionists a majority of 140 seats over the Liberals, both parties, however, are cutting close on this occasion.

House of Commons will be practically identical with the old. The Conservatives expect a Premier acceptable to both sides.

Fine Exhibition of

Boxing Last Night

Tommy Gallant of Buffalo and Dave Goodman of

Toronto Box Six Fast Rounds at Belleville Ath-

letic Club.

Under the auspices of the Belleville Athletic Club, a boxing contest took place last evening in Alberta Hall. There was a fair attendance of the sporting element of the city present who thoroughly enjoyed the program presented and especially the fine exhibition of boxing by Tommy Gallant of Buffalo, the 110 pound champion of New York state, and Dave Goodman of Toronto, the four times finalist in the 118 pounds Canadian. Both of the 118 pound Canadian championship, who also captured the amateur championship in 1907. They gave a strenuous bout which was a fine exhibition of the manly sport. Both are clever fighters and would the reputation which preceded them. No pretence was made for a knock-out blow or to inflict severe punishment, but a clean, yet aggressive exhibition of how to protect one from the as-

sault of an opponent was given. Both were in good condition and the close were as fresh as daisies. Their clean work was loudly applauded by the spectators.

Precious to the attraction of the evening there were two good preliminary by local losers, who are connected with the Athletic Club, namely, News and Smith, and Murray and Shaw. They each gave three rounds of boxing, but were not of much interest to the spectators.

Mr. John A. Mackie acted as referee, filling that position most acceptably. Messrs. Wm. Connolly and Ed. News acted as time keepers.

Mr. Charles Laing, who is conducting the work here, certainly deserves credit for the good programme of clean sport he provided for the spectators.

CURRENT EVENTS.

Small, Professor, General Meeting to-night. Willing. Affair. Attended.

The appearance in the next future of a French minister, Conservative or not, will be completed from Winnipeg, to shorten by the end of next year.

The Minister of Railways officially stated the other day that if nothing intervenes, the Transcontinental will be completed from Winnipeg, to shorten by the end of next year.

There were no less than 2,500 people against the assembly in Toronto, and Mr. A. H. Hurlingham, the Conservative speaker, got on about 1,500 names, and Mr. W. T. Kerensky, representing the "Union" interests, got on just 125. This would indicate that local opinion is leaning.

The local opinion given in the West is more sure, the Jews on the whole getting the best of it. A telegram from Regina of the 14th says: "Local opinion given in Moose Jaw and for other municipalities in Saskatchewan, while 21 others voted against it."

Premier Nason, in Alberta, in his annual report, states that the The Prairie Building have cost so far, about \$1,000,000. To complete and furnish them about \$2,000,000 will be needed. Referring to the estimate of the cost of the new government buildings, the Premier said that what the province needs is a college, but farm houses, expensive, and domestic, may be carried on. The total cost of the new government buildings is a net profit of two per cent, the past year.

Not Sisters

Two women who were once room-mates and who now live in the same house under the same roof, who are sisters in name and sisterly affection, and who are also sisters in blood, are not sisters in fact. They are the daughters of a man and a woman who were once room-mates and who are now sisters in name and sisterly affection, and who are also sisters in blood, are not sisters in fact.

When you have suffered from such trouble, have found yourself and me in the same of women who are sisters in name and sisterly affection, and who are also sisters in blood, are not sisters in fact.

WOMANIZERS DEMAND PROBE CANADA'S BRITISH MILITARY

Seven Hundred To be In
Military Contingent At
Coronation.

INVITATIONS ARRIVE
Boy Scouts May Also Go—Will
Be Chosen From All

OTTAWA, Dec. 16.—An invitation reached today to invite Canada to send a military contingent, 700 strong, to represent the Dominion at the coronation of King George in June, when King Edward was crowned. Canada had less than 500 men present. The invitation to be present in June will be at once accepted, and the Militia Council will recommend immediately to select the contingent. Every man in the service will be represented, taking in its turn infantry and cavalry. The Northern Mounted Police will also be present.

Lullaby.

Sleep, mother's flower of heaven,
Sleep, little rove of mine!
Haloed with gold more precious
Than gleams on eastern shrine,
Looking with eyes of sapphire
On a world that seems all divine.

Fain would I follow thee, sweetheart,
Into the world of dreams,
Catch the bright shimmer of heaven
That on thy vision gleams,
Shave thy white soul wanderings
On banks of perfumed streams.

Only to thee comes the summons;
Mother must vigil keep,
Stand at the gate of dreamland
Guarding thy slumber deep.
Sleep, little flower of heaven,
Sleep, mother's rove-bud, sleep!

Mother Songs

By Eunice Tietjens.

Mother's Christmas.

Little, white soul in my keeping, mine to guard and mine to sway,
Little heart so pure and tender, (May God keep it so alway!)
Baby mine, we must rejoice, for to-day is Christmas day

Christmas is the day of babies, is the best day of the year,
When the whole glad world rejoices for the Christ Child that is here,
And a mother's heart lies trembling with a wondrous joy- and fear.

The Little Woes

Hush, baby, coning! Mother will banish
All of the little woes,
To the Land of Nowhere they will vanish
Where the little shadow goes.

Where the little shadow runs to hide him
When the brave, gold sunshine glows,
All the little woes shall run beside him,
For mother, mother knows!

Waking Song.
Wake, mother's baby, so warm and wee
Soft and sleepy, so cozy to see;
Rub pink fists in rose-lidded eyes
And tell old Sand Man it's time to arise!

The Careless Angel.
Babykin, babykin, dear little mite,
Are you a mortal or are you a sprite?
Surely the angel to whom you were given
Lost your real label: "A Cherub from Heaven."

CLOSE CALL FOR GRAHAME WHITE

Falls Seventy Feet When His Aeroplane Collapses—HAPPENS NEAR DOWER

Two Doctors on the Ground Rendered First Aid

LONDON, Dec. 20.—Graham-White had the closest call of his flying career yesterday when he fell to his death from his biplane on the cliffs near Dover. His plane was terribly cut.

He was flying over the cliffs near the East Warden hotel, where for a while he was imprisoned, having been mistaken for a spy. He was better in the evening, and will probably recover quickly.

Graham-White and other aviators had their biplanes at Dower for the purpose of raising the revenue of the town. The plane of Graham-White, which was the first to be damaged, was the first to be damaged.

Graham-White's machine also escaped damage from the crash. He took it out yesterday morning to fly it with the tide, and it was the first plane to be damaged.

WILDFIRE
While "Wildfire" is the dramatically popular play at the George Brown Theatre and Theatre, it is also to appear at Griffith's Opera House, Friday, Dec. 24th, with a cast of exceptional merit and the original scenic effects. It is designed in its measure of attracting the public from atmosphere of its first and first act, which takes place at a country house on Lake Umbagog, with the famous and beautiful scenery, which is especially shown in the second. Here one is given a glimpse behind the scenes, while the audience catches the preliminary before, a big scene.

I tell you, my dear boy, I stand on my rights. I believe a man should be married in his own house. You know, that's the way. But what I want to know is if you are allowed to make in the party?

Prof. Hadden said that the "love of Paula's" married outfit would "steal the show" of the production.

Since the death of a child is an event of development, the bodies and limbs are soft and pliable, and will conform to a head as well as to a properly shaped shoe.

Quality Grocer

People who suffer from "fired feet" are often told that the cause of their discomfort is caused by the fact that they wear stockings that do not fit. It is not the stockings, it is almost as important as that of shoes, and they should be chosen with equal care.

Colored stockings can sometimes be a source of danger to thin and warm feet, but stockings with white feet are just as good as those that are entirely white.

10.59

Your Committee on Roads and Bridges beg leave to report to you as follows:

While we believe that our System of Road Management is one of the best in Ontario, we are also equally convinced that the policy which has been pursued for years past in regard to our Bridges has been short sighted and has been fruitful of evil consequences to this County, not only from a financial standpoint, but also directly to it can be attributed the disasters which in the last couple of years have startled and shocked this whole County.

The magnitude of the bridge problem in this County to-day is such that it is necessary that the weakness of the whole system should be laid bare in order that the public may thoroughly realize the many difficulties with which this Council has to contend before safety can be assured for the heavy class of traffic which modern improvements and the progress of this County has made necessary.

There are at present about 250 old-wooden bridges under the supervision of this County. Most of them have been built many years ago, when conditions were altogether different from what they are to-day. Years of wear and natural decay have tended to greatly weaken those old structures, beyond all this a weakness which no amount of repair can remedy; it is in the design itself. When we come to consider the conditions which prevailed in this County 40 years ago, more so, when those bridges were originally designed, we are struck by the fact that the traffic of that day class of traffic that the System of Good Roads which we inaugurated would make possible and which the progressiveness of this County along all lines has made necessary.

We believe that the carrying capacity of these bridges will have been greatly increased at very little extra expense to their own construction. In the floor design no attempt is made towards a distribution of weight, with the result that the weakest spot in any one transverse beam represents full strength and carrying capacity of the whole bridge. If you wish to see the results of this design, you need only repair at a huge expense those old bridges that are not recognizing the fact that in the vast majority of cases they had simply finished their usefulness. That this course was unwise: we have lately had abundant proof. Last year five of those old bridges broke down, and in one case, that of Uxbridge, the result was disastrous to human life. This year, in spite of the fact that repairs have been made on 70 bridges, yet six were utterly collapsed, and one of them on our last session, bringing down with it a large number of people. The only proof of existence a strong man can give is by his own strength. The same observation striking by honest labor to provide for none.

The deplorable accident in Madec Township, by which the Herbert Eggleston lost his life, and the sweeping verdict of the Coroner's Jury, which attributed the accident to the negligence of the driver, have attracted much attention, and for more than passing notice. Such fatalities give the public a natural and reasonable right to demand an explanation, and it is not surprising that the public has not at the present moment questioned the sincerity or the fairness of the jury, believing them not to be actuated by a spirit of fairness or impartiality. It is, however, not surprising that they seriously question the wisdom of an investigation of that kind, being conducted and under the control of men who are not disinterested. It is not surprising that the plan adopted at the investigation, taken together with the general remarks of the Coroner, force us to the inevitable conclusion that the Coroner's Jury ignored the possibility of the existence of previous conditions or use for some explainable reason were willing to place the inquiry along the lines of the Coroner's Jury, and that the Coroner's Jury had calculated to give the jury the impression as to what steps were necessary, and of a leading idea as to what steps were necessary for the County to take in order to safeguard the public for the future; for, after all, the future is more

I've interpreted aright the meaning conveyed in that verdict, because I said both to the Council of 1910 and the officials of the Board of Bridge Inspection that the course pursued by Council of this year must be wrong. Is it true? In order intelligently answer that question, let us ask briefly as the outline the work undertaken and performed by the Council of this year. The usual procedure for the organization in January, to appoint two of their members to sit on the Bridge Inspection when called upon, and also of their members to be Chairman of the Roads and Bridge Committee, whose duty it is to go with the Superintendent of the whole County system of roads, to see that the County Council is kept advised of the progress of the work, and to call for consultation the Inspection Committee when, which was this year composed of Cooke, Hanley and

How had this Council refused to accept the recommendation of that Committee or refused to provide the funds which was in their power to grant, they might with some reason be blamed; but such was not the case. On the contrary, the Council cheerfully complied with every request of that Committee that they believed was in their power to do.

though it involved an increased expenditure on Bridgeage, far beyond any previous year in the history of this County; and by such action, it seems to us, should place the individual members of this Council outside of the members of the said Committee, and to blame, and if the Officials of this County, from the Superior to the Foreman, who have under their control the expenditure in detail, have appropriated granted to them, the money for the purpose of such an expenditure, and if mistakes to which all humanity is liable, did the best it was possible to do under existing conditions, which we believe there is no doubt, surely they should be beyond censure; and therefore if anyone is charged with the Council of this year to blame it must be simply and solely the members of that Bridgeage Committee.

[illegible]

One of the difficulties we find to contend with is that owing to high water in the Spring it is difficult to get the sub-structure finished in time to complete the large bridges the same season, and this Fall we have built the sub-structure for Fairfield's Bridge; called for tenders for the steel and, the contract now awaits your approval if you deem it advisable to accept. Also believing that owing to the conditions,

existing in this County that if the matter were placed before the Dominion Government, they might be induced to aid us, we had plans and estimates prepared for the rebuilding of the bridge, where, owing to the fact that the Government in building the new bridge, had interfered with our Road, and otherwise caused us considerable inconvenience, and also because a new bridge there according to the plans designed would be the most costly in the County, we deemed it to be the most advisable place to ask for aid. The plans prepared call for a bridge of five spans of 100 feet each designed to carry a load of 30 tons, and the estimated cost for the work on the structure complete at \$38,000. A deputations were deputed to the Dominion Government for the assurance of the Department of Railways and Canals that

They would assume the cost of Three of those spans, together with the substructure complete. Tenders were called, and, the lowest, that of W. H. Hines for the sub-structure was accepted. The County Engineer, however, for the steel, were accepted subject to the approval of the Department. These have since been approved of by the Department. A deputation also interviewed the Provincial Department in reference to the customary one-third grant on County Bridges and received the assurance of the Department that notwithstanding the fact that the County had no right of disposal as long as it did not involve dual ownership, the Provincial Department would contribute one-third of the total cost. This practically places that bridge, costing \$39,000, at the disposal of this County without either debt or taxation, and as the County has no other means of raising money, provides for the construction of bridges to the extent of \$39,000 and only incurring a debt of about \$20,000.

Your Committee have also prepared an estimate of the cost of rebuilding every wooden bridge over 10 feet long that is under the supervision of the County. This estimate is based on the actual measurement of those bridges and the tenders received for construction this year, which we think ought to be a fairly correct estimate. The total length of the bridges is 9,169 feet and the estimated cost of rebuilding is \$403,000. This sum at first sight seems stupendous but when we estimate the grants which are made by the Provincial Government for building bridges on our County Road System we find that the County's share would be only \$300,000.

Now, to raise this sum, by a 6 per cent. twenty years indenture if they were sold at par, would call for an annual payment of \$24,070 for twenty years. But we must also take into consideration the fact that for the last two years our annual expenditure for damages and repairs on those old wooden bridges has been \$10,000 per year. This latter item is a very clear indication of the extent to which they were replaced by new modern structures, leaving only an actual increased taxation of \$14,070 per year; and as this County has an equalized assessment of \$17,200,000, this would simply mean an increased yearly taxation for twenty years of only one cent on an average of the worth of the property within the County. Surely this is not too high a price to pay for the safety of the travelling public.

What can be the only alternative position that this County can take. Simply to pursue the same old routine of years past of striving by large expenditures for repairs to provide safety with a System which past experience has proved to be inadequate for present day traffic. Viewed from the financial standpoint, what can we hope to gain by delay? Who save man who is at all familiar with existing conditions would ever hazard the statement that it is possible to guarantee safety with the System that we now have, or dare to hope that the expenditure for the future would be any less than it has been in the past, and perhaps worse.

that, in making the road, what would be the reason? Simply that at the end of Twenty Years we would have expended \$30,000, and still have a bad system of roads. We would have a bridge, and bear in mind, Gentlemen, that every dollar you spend on repairs has to be raised directly by taxation from the rate payers of this County. The Legislature makes no grants for repairs and only aids in works of a permanent nature such as construction of new bridges. Recent legislation authorizes Counties which have passed a fly-laid under the good Roads System to borrow by debenture to the extent of 2 per cent. of their equalized assessment for the purpose of

building bridges on their County Road System. This sum would be amply sufficient for to meet all the requirements.

And, therefore, your Committee have no hesitation in recommending that steps be taken to provide the necessary funds for building as many bridges in the coming year as you deem whatever Committee may be appointed can efficiently and economically supervise the erection of.

All of which is respectfully submitted.

Germany Meets Out Severe Penalties to British Officers.

Captain Bernard Frederick Trench and

 Germany — British Courts Bound

Leicht, Mein Nait to Repeat Office.

Lieut. Dec. 23-Capt. Bernard Frederick Trevellick, British Royal Marine Light Infantry, and Lieut. Vivian H. Brandon, of the Royal Navy were sentenced to death by espionage upon the German Government at Berlin, and sentenced each to four years imprisonment in a fortress.

The British spies were arrested at Berlin on Aug. 22 and 23, and the opening of their trial on Wednesday was held in open court as day were held in secret on cells as the prison in Leipzig.

Brandon, who was first taken into custody, is a brother-in-law of Mr. William Bull, M. P. Trevellick is a grandson of Lord Ashurst, a descendant of Archbishop Trent. When arrested he was confined in the British Embassy, had come to Germany to collect information, and was arrested on the place at the disposal of the British Government. His admission was requested at the trial on Wednesday.

Yesterday's proceedings were not without considerable interest, chiefly on account of the introduction of the British representative, who was among those excluded. The Japanese delegates were looked upon as the chief attraction of the drama of Tokio.

It was reported, it is alleged that the men were taking flight; perhaps the fortifications at Soerabaya were not so secure. The groups of the defences of Soerabaya, in the North Sea, of Wankow, and of the Straits of Malacca, were taken to Jeddah Bay. The spies made a dash for it, and were taken. Wanted to Drop Health Inspector
Montreal, Dec. 21.—The anti-leap-
le attitude of a majority of the Mon-
treal aldermen was exemplified yester-
day, when fifteen of the city fathers
voted to drop the name of Dr. La-

payroll. This was defeated because a
two-third vote is necessary, and then
the same men voted to refer the mat-
ter to the Board of Health, it being
up to the body to dismiss the inspec-

Stabbed in the Heart. — 33-Geiseppe Maurello, an Italian grocer, of this city, was murdered early yesterday, being stabbed in the heart by an unknown person. Maurello lived in the rear of his store.

Five men and four women, all Italians, have been taken into custody by the police as being able to give a possible clue to the murderer. They followed a series of neighborhood quarrels.
